## — GLOW YARN

Glow yarn is a revolutionary luminous filament yarn developed by mixing, melting and extruding Polyester chips with photoluminescent pigment.

### STRONGLY LIGHT ABSORBING-EMITTING GLOW

#### MATERIALS

Glow yarn automatically glows in the dark after absorbing sunlight for 3 minutes or luminous light for 20 minutes. One hour of sunlight exposure enables luminous glow yarn to emit light for up to 3 hours continuously. The light-absorbing process of absorbing-emitting-storing-emitting of glow yarn can be repeated infinitely.

- Longest glow ever
- Highest luminosity
- Suitable for outdoor life
- Unlimited range of applications

Glow yarn luminescent material is non-toxic, harmless, and free from any harmful substances. Glow yarn offers unlimited applications for embroidery or sewing thread, weaving, garments, shoes, ropes, straps, strings, tents, beads, buttons, electric signboards and even hair spray and nail enamel. Glow yarn enables a high degree of luminosity, excellent resistance against weather and light as well as stability against both water and other chemicals.

#### Available as Filament Yarn, Embroidery Yarn, Fiber.

- Standard glow yarn is raw white and has a yellowish/green luminous glow effect.
- Raw white glow yarn with a blue glow effect can be produced upon the demand of customers.
- Colored glow filament yarn in blue, pink, yellow and violet with a yellowish/green luminous glow effect can be produced upon the demand of customers. Exclusively available in text 167 f 18 and dtex 220 f 24.

#### APPLICATIONS:

**Filament Glow Yarn:** Jacquard, toy fabric, socks, Lingerie, stuff toys, ropes, strings, webbing, cloth, hats, gloves.

**Embroidery Glow Yarn:** Caps, hats, mittens, logos, toys

**Polyester Glow Fiber:** Jacquard boa, dumbling, high pile.
