---- POLYESTER DOPE DYED FROM INDIA

Dope Dyed fibre is an energy-saving & environmentally friendly raw material. Due to doped dyed yarns are created by adding masterbatch colourant to the polymer melt in spinning, it substitutes the most polluting process of dyeing in industries.

Recycled polyester fibres from post-consumer PET bottles which are giving a solution for the landfilling issues and greenhouse emissions are better for the planet.

Also, dope dyed shades made from PET bottles has zero water consumptions at pigmentation with the masterbatch process with brilliant and variant shades in the library.
